

IHC. 8600. 11/18/19

This chart is for knowing relative speed to expect from high side gears

The RPM's are also known as "power range".
If power is needed a gear should be chosen that corresponds to the speed of the truck.

GEAR.	RPM.	SPEED
6.	1200.	15
6.	1400.	18-20. mph
6.	1700.	24
7.	1300.	25-26
7.	1700.	30-32
8.	1200.	30-31
8.	1700.	42-44
9.	1200.	42
9.	1700.	60
10.	1200.	55
