PEASLEE TECH

THE CRUNCH at Peaslee was the site for a meeting for the P1 Group field supervisors. THE CRUNCH is Peaslee's business ignitor and support center. P1 is a national construction and service provider with nearly 1,400 employees across seven offices and a longtime supporter of Peaslee.

DID YOU KNOW?

You can now learn about the Peaslee History at peasleetech.org/peaslee-history

First Sunflower bloom of the summer in Megan's Patch

WASTE NOT, When Peaslee Carpentry Students built this beautiful gazebo, they had more than aesthetics in mind. The cut-out lumber was saved and now serves as an art installation throughout Peaslee.

Peaslee Tech and Tenants to Homeowners transport the tiny home to its new location in East Lawrence.

With the partnership with Tenants to Homeowners, the carpentry class was able to build this home, which moved onsite on August 16, 2023. Tenants to Homeowners committed to partnering with Peaslee for a minimum of 4 houses. The home was constructed inside Peaslee Tech, allowing trainees to build regardless of weather conditions, lighting, etc. This project had about 70 trainees involved in the construction of the home including the HVAC, Plumbing, Electrician, and Welding trainees.

THE PRIDE OF PEASLEE, ALL CERTIFICATE RECIPIENTS AND THEIR PROGRAM FROM 7/1/23- 10/1/23
